

The Flowpresso® system is a breakthrough non-invasive natural therapy that delivers a 3-in-1 sensory treatment to enhance physical and mental wellbeing, restoring health.

Flowpresso® encourages the body to reach a new sense of normality and achieve optimal wellness by supporting the autonomic nervous system and restoring the body to a state of efficiency.

It is clinically proven to be effective in reducing fatigue, improving sleep, as well as reducing stress and anxiety symptomology. Flowpresso® is a low-risk natural therapy that can easily integrate into your health, medical and wellness approach.

What is the 3 - in - 1 therapy?

Flowpresso® Benefits

- ❖ Improve the quality of your sleep and reduce stress
- ❖ Increase energy and overcome fatigue
- ❖ Promote mental alertness
- ❖ Reduce anxiety
- ❖ Improve sports performance, recovery and endurance
- ❖ Enhance mobility and flexibility
- ❖ Support weight management
- ❖ Restore balance and support natural self-healing mechanisms

Repair, Recover, Rejuvenate.

This unique combination of therapies releases toxins and puts the body into a 'rest and restore' state, working with our physiological processes to switch off fight or flight mechanisms, and facilitate healing and repair.

It's like CTRL ALT DEL

for your body

1) Compression:

FLOWpresso® delivers cyclic pneumatic compression to different areas of the body. This allows the body to change how it moves, creating flow and releasing toxins.

Benefits of Lymphatic Drainage:

- Reduces ↓ Inflammation and chronic discomfort
- Reduces ↓ Joint discomfort
- Supports the function of the Immune System
- Assists in Healing

2) Deep Pressure Therapy:

FLOWpresso® applies deep pressure to the body – similar to a hug – through each chamber, generating a profoundly relaxing effect, allowing the body to calm and release the daily stress of life.

Deep Pressure Therapy Statistics: (2022)

- Increases ↑ Serotonin by 28%
- Increases ↑ Dopamine by 31%
- Increases ↑ production of Melatonin - (improving sleep)
- Reduces ↓ Cortisol by 31%

3) Far Infrared Heat:

FLOWpresso® applies far infrared heat to the four garment sections to encourage relaxation, sleep-promoting effects, and an improved state of health. The far infrared heat embraces the body with a gentle, healing warmth, allowing the body to rest and relax to restore balance.

Statistics on Stress: (Patterson, 2022)

- 77% of Americans experience stress that affects their physical health.
- 73% of people experience stress that impacts their mental health.
- 48% of people have difficulties sleeping due to stress.
